## **Global Outreach**

Through philanthropic endeavours in underserved communities, Sun Pharma's global operations deliver profound social impact. Guided by a holistic approach to community development, our global outreach programme collaborates with credible partners engaged in transformative work on the ground.

## Aiding Young Scholars: Sun Pharma's Mebendazole Aid Reaches Guatemalan Schools

"Due to lack of resources and inability to pay for medications, families of children who received a supply of medicines were most grateful. We are thankful for this continued support in our communities."

-Heydy Bu, Spokesperson, Food for the Poor

Guatemala faces chronic child malnutrition, resulting in high infant, child, and maternal mortality rates.

Sun Pharma empowered IHP to make a meaningful difference in Guatemala, starting with elementary schools like Colegio Experimental Primavera. Together with our partner, Food for the Poor, we provided a vital supply of mebendazole, an anti-worm medicine specifically targeted at Sun Pharma's donations to International Health Partners (IHP) helped provide:

Medicines to the value of ~₹20.20 Mn

Treatments **101,169** 

treating gastrointestinal illnesses. This medication is crucial in helping school-age children particularly susceptible to infections due to factors such as wearing open shoes, playing in soil, and suffering from malnutrition. By addressing these pressing health challenges, Sun Pharma is committed to uplifting the lives of Guatemalans, with a focus on improving the well-being of children and their families.

## **Other Activities**

- Engaging the elderly in heartwarming seasonal activities: Warm Winter and Summer Happening
- Celebrating Taro's Taverna: Unveiling the Greek-inspired community cafe
- Harvesting together: Building connections through a community vegetable garden
- Organising sessions, meals, and workshops for 150+ seniors
- Creating a seating area for the elderly from recycled material
- Donating food packages to families in need
- Blood donation campaign
- Educational tour for chemistry students
