

Sun Pharma in the United States

With 40,000+ employees worldwide, and driven by innovation, Sun Pharma delivers high-quality solutions through a broad portfolio of Innovative Medicines, Generics and Consumer Healthcare products. Our U.S. business is a key engine of global growth, advancing access to complex, technology-intensive treatments across acute and chronic conditions.

Backed by our sustained investment in R&D and a deep commitment to improving patient outcomes, we manufacture and market more than 2,000 molecules in a wide range of dosage forms, including tablets, capsules, injectables, inhalers, ointments, creams and liquids.
