## REACHING PEOPLES TOUCHING LIVES

From humble beginnings in 1983, Sun Pharma has grown to become the 4 largest speciality generic pharmaceutical company in the world. Our passion for R&D has enabled us to develop over 2000 products that are sold in over 100 countries worldwide. At Sun, we are driven by our core values of quality, reliability, innovation, trust and consistency. These values inspire us to reach out and touch millions of lives globally.

---

# ABOUT US

Sun Pharma is the 4<sup>th</sup> largest generic pharmaceutical company in the world and ranks #1 in India. A vertically integrated business with economies of scale and an extremely skilled team enables timely delivery of quality products at affordable prices. It serves customers and patients in over 150 countries across the globe. Sun Pharma's global presence is supported by 44 manufacturing facilities spread across 5 continents with a multi-cultural workforce comprising over 50+ nationalities.

The consolidated revenues for 12 months ending March 2019 are US\$ 4 billion, of which USA contributes US\$ 2.3 billion. In India, the company enjoys leadership across 10 different therapeutic classes of doctors. Sun Pharma's 30 brands feature amongst the top 300 pharmaceutical brands in India. It's footprint across emerging markets covers over 100 markets including 6 markets in Western Europe. It's Global Consumer Healthcare business is ranked in the Top 10 across 4 global markets. Sun Pharma fosters excellence through innovation supported by strong R&D capabilities with 2,000 scientists and R&D investments of over 7% of net sales.

Sun Pharma's product list includes complex APIs that require isolated manufacturing area like anti-cancers, peptides, steroids, sex hormones and controlled/narcotic substances. It offers Bulk Actives, Intermediates and services for Custom Synthesis. Every year, the company makes a large number of products filings based on the technology developed at its R&D centres. Sun Pharma manufactures APIs in 13 world class manufacturing plants located in India, Hungary, the US, Australia and Israel. These manufacturing facilities are cGMP compliant and hold approvals from global regulatory agencies including USFDA, EUGMP, PMDA, COFEPRIS, TGA, etc.

The company currently has 414 DMF/CEP filed, of which 315 have been approved as on June 2019.

Sun Pharma's comprehensive end to end support ensures smooth development, timely filing and successful launch of products. Its R&D prowess and manufacturing capabilities are strengthened by a strong and well informed regulatory team. It has an experienced team of IP attorneys and other skilled professionals, specialising in medicinal chemistry and IP law who protect its IP wealth. This team ensures that all the API and processes developed for global markets comply with applicable laws and intellectual properties.

With its vision of **Reaching People and Touching Lives** globally and as a leading provider of valued medicines, Sun Pharma is dedicated to bring about change and create a meaningful impact in the lives of others.
