Dear Sir/Madam,

I am writing to express my concern regarding the excessive packaging used for my recent purchase of 10ml eye drops. The box measuring 11x9x3 cm appears unnecessary for such a small product. This not only contributes to environmental waste but also increases costs.

I kindly request that you reconsider your packaging practices to be eco-friendlier and more efficient for smaller products. Many companies have successfully adopted sustainable packaging solutions without compromising product integrity.

I appreciate your attention to this matter and hope for positive changes in your packaging practices.

Sincerely,

Ramya
