

## **PATIENT INFORMATION**

### **Minocycline Hydrochloride Capsules, USP (mye-no-SYE-kleen) Hydrochloride Capsules**

Read the Patient Information that comes with minocycline hydrochloride capsules, USP before you or a family member starts taking them and each time you get a refill. There may be new information. This Patient Information leaflet does not take the place of talking to your healthcare provider about your medical condition or treatment.

#### **What are Minocycline Hydrochloride Capsules, USP?**

Minocycline hydrochloride capsules, USP are a tetracycline-class antibiotic medicine. Minocycline hydrochloride capsules, USP are used to treat certain infections caused by bacteria. These include infections of the skin, respiratory tract, urinary tract, some sexually transmitted diseases, and others. Minocycline hydrochloride capsules, USP may be used along with other treatments for severe acne.

Sometimes other germs, called viruses, cause infections. The common cold is a virus. Minocycline hydrochloride capsules, USP, like other antibiotics, do not treat viruses.

**Who should not take Minocycline Hydrochloride Capsules, USP? Do not take minocycline hydrochloride capsules, USP if you are allergic to minocycline or other tetracycline antibiotics.**

Ask your doctor or pharmacist for a list of these medicines if you are not sure. See the end of this Patient Information leaflet for a complete list of ingredients in minocycline hydrochloride capsules, USP.

**Minocycline hydrochloride capsules, USP are not recommended for pregnant women or children under 8 years of age because:**

- 1. Minocycline hydrochloride capsules, USP may harm an unborn baby.**
- 2. Minocycline hydrochloride capsules, USP may permanently turn a baby's or child's teeth yellow-gray-brown during tooth development.** Tooth development happens in the last half of pregnancy and birth to age 8 years.

#### **What should I tell my doctor before taking Minocycline Hydrochloride Capsules, USP?**

**Before taking minocycline hydrochloride capsules, USP, tell your doctor about all of your medical conditions, including if you:**

- have liver or kidney problems.**
- are pregnant or plan to become pregnant.** Minocycline hydrochloride capsules, USP may harm your unborn baby. **Stop taking minocycline hydrochloride capsules, USP and call your doctor if you become pregnant while taking them.**
- are breastfeeding or plan to breastfeed.** Minocycline passes into your breast milk and may harm your baby. You and your doctor should decide if you will take minocycline hydrochloride capsules, USP or breastfeed. You should not do both.

**Tell your doctor about all the medicines you take,** including prescription and over-the-counter medicines, vitamins, and herbal supplements. Using minocycline hydrochloride capsules, USP with other medicines can cause side effects.

**Especially tell your doctor if you take:**

- **birth control pills.** Minocycline hydrochloride capsules, USP may make your birth control pills less effective.
- **a blood thinner medicine.** The dose of your blood thinner may have to be lowered.
- **a penicillin antibiotic medicine.** Minocycline hydrochloride capsules, USP and penicillins should not be used together.
- **migraine medicines called ergot alkaloids.**
- **an acne medicine by mouth called isotretinoin.**
- **antacids that contain aluminum, calcium, or magnesium, or iron-containing products.**

Know the medicines you take, keep a list of them to show your doctor and pharmacist each time you get a new medicine.

#### **How should I take Minocycline Hydrochloride Capsules, USP?**

- **Take minocycline hydrochloride capsules, USP exactly as your doctor tells you to take them.** Skipping doses or not taking all your minocycline hydrochloride capsules, USP may:
  - Decrease the effectiveness of the treatment.
  - Increase the chance that bacteria will develop resistance to minocycline hydrochloride capsules, USP
- **Take minocycline hydrochloride capsules, USP with a full glass of liquid.** Taking minocycline hydrochloride capsules, USP with enough liquid may lower your chance of getting irritation or ulcers in your esophagus. Your esophagus is the tube that connects your mouth to your stomach.
- **Minocycline hydrochloride capsules, USP may be taken with or without food.** If you forget to take minocycline hydrochloride capsules, USP, take them as soon as you remember.
- If you take too many minocycline hydrochloride capsules, USP, call your doctor or poison control center right away.

#### **What are the possible side effects of Minocycline Hydrochloride Capsules, USP?**

**Minocycline hydrochloride capsules, USP may cause serious side effects. Stop minocycline hydrochloride capsules, USP and call your doctor if you have:**

- watery diarrhea
- bloody stools
- stomach cramps
- unusual headaches
- blurred vision
- fever
- rash
- joint pain
- feeling very tired
- swollen lymph nodes

#### **Minocycline hydrochloride capsules, USP may also cause:**

- **central nervous system effects.** Symptoms include light-headedness, dizziness, and a spinning feeling (vertigo). You should not drive or operate machines if you have these symptoms.
- **sun sensitivity (photosensitivity).** You may get a worse sunburn with minocycline hydrochloride capsules, USP. Avoid sun exposure and the use of sunlamps or tanning beds. Protect your skin while out in the sunlight. Stop minocycline hydrochloride capsules, USP and call your doctor if your skin turns red.

These are not all the possible side effects of minocycline hydrochloride capsules, USP. For more information ask your doctor or pharmacist.

**Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.**

#### **How should I store Minocycline Hydrochloride Capsules, USP?**

- Store minocycline hydrochloride capsules, USP at room temperature between 68°F to 77°F (20°C to 25°C).
- Keep minocycline hydrochloride capsules, USP away from light, moisture, and excess heat.
- Throw away any minocycline hydrochloride capsules, USP that are outdated or no longer needed.
- **Keep minocycline hydrochloride capsules, USP and all medicines out of the reach of children.**

#### **General information about the safe and effective use of Minocycline Hydrochloride Capsules, USP**

Medicines are sometimes prescribed for purposes other than those listed in a Patient Information leaflet.
